Assessment of the Adult Patient

December 6th, 2017

7:30 a.m. to 4:00 p.m.

Hennepin County Medical Center—
Room BL.320

Description/Learning Outcomes

The accurate and timely assessment of the adult patient can make the difference between rapid recovery and serious setbacks. The learning outcome is to improve the learner's ability to accurately assess the cardiovascular, neurological, pulmonary, gastrointestinal, endocrine, and renal systems. Simulation will help learners strengthen their clinical knowledge base, critical thinking skills, as well as helping learners to see how to improve or sustain good performance. Learners will leave feeling better prepared to manage these types of critically ill patients.

Please bring your stethoscope.
