Nursing Care of the Telemetry Patient

November 28th, 2017

7:30 a.m. – 4:00 p.m.

Minneapolis VA Health Care System –
Room 4U–106 (in the Medical Library)

Description/Learning Outcomes

Telemetry is no longer just monitoring a patient's cardiac rhythm – the acuity and range of assessments and interventions done on telemetry and stepdown units has grown exponentially in the last five years. The learning outcome is to improve the learner's ability to assess, manage, and provide discharge teaching to the telemetry patient.

Target Audience

This class was designed for nurses who care for telemetry patients; however, other health care professionals are welcome to attend. **NOTE: You must be able to interpret ECG strips; it will not be taught in class.**

Before You Come To Class

You must have attended the *ECG Rhythm Interpretation* class or complete the **ECG Rhythm Interpretation Primer** before class time.
