If the link does not work, copy and paste the link (web page address) into your internet browser. Available 1 week prior to class.

Nursing Care of the Post-Surgical Patient

December 3rd, 2018

7:30 a.m. to 4:00 p.m.

Minneapolis VA Health Care System –
Room 4U–106 (in the Medical Library)

Description/Learning Outcomes

What happens when your patient returns from the operating room? What should your patient care priorities be in the first days following surgery? What can you do to reduce complications and help your patient recover more quickly? **Learning Outcomes:** After attending this class, the participant will self-report an improvement in their knowledge base and critical thinking skills related to the assessment and management of pain, pulmonary and hemodynamic complications, infection, incisions and lines, and delirium in the post-surgical patient.

Target Audience

This class is designed for nurses who care for post-surgical patients, however, other health care professionals are welcome to attend.

Recommended Pre-Reading

Anatomy, physiology, pathophysiology and other basics will not be covered in class. TCHP has several primers available to help you review this content: *Cardiovascular System Review*, *Understanding Adult Hemodynamics Primer*, *Pulmonary System Review*, and *the GI, Renal and Endocrine System Review*. Other TCHP Home Studies that will help you prepare for this class include: *Fundamentals of Diabetes*, *Fundamentals of Pain and Patient Education in the Real World*. TCHP organization employees can receive passwords to access these home studies from the TCHP website from their representatives: (HCMC= MyLearningCenter@hcmcd.org, VA=VHAMINTCHP@va.gov, and NH=Linda Herrera. **Non-TCHP** hospital participants will need to purchase home studies on the TCHP website at: <http://www.tchpeducation.com/homestudies/homestudies.html> that they are interested in to receive the password.
