Building Leadership Skills

October 23rd, 2018

7:30 a.m. - 4:00 p.m.

Hennepin County Medical Center—
Room O9.115

Description/Learning Outcomes

Welcome to being a leader! Your organization needs strong leadership skills to accomplish the important work that they do. The term “leader” can inspire both pride and fear in many. Being a leader entails responsibility and the reward that comes with helping to make things better. The learning outcome is for the learner to self-report an improved ability to:

- Identify what it means to be a leader,
- Demonstrate the traits and skills that define a good leader,
- Use strategies that build a strong team, and
- Manage common problems that occur.

This class also includes an opportunity to partner with your manager or supervisor to practice your leadership skills by working on a project or area that you have identified.

Target Audience

This class is designed for nurses who are ready to become formal and informal leaders in their work setting; although others are welcome to attend. Managers who attend this program will be given an overview of how to use this class to promote leadership development in their employees, as well as an opportunity to see the content of the class.
